

Aliénor DENECE

Student at School 42
Paris, France

Education

School 42

October 2015 – today

- Algorithms, Infographics, Shell, Unix, C, Communication

42 is a private french computing school created by Xavier Niel.

The tuition is inspired by the changes internet brought, combined with a peer-to-peer pedagogy. The diploma it delivers isn't recognized by the Republic of France, but bets on the advanced programming skills of its students as well as their capacity to innovate and their ability to see things and think differently.

Member of *The Tutors* who create and supervise partnerships with different schools such as HEC.

Member of *Code[Her]* which promotes gender diversity in the Tech ecosystem.

Paris V Descartes University

2012 – 2015

- Degree in psychology, specialty neuropsychology

The University Paris V Descartes belongs to the academic alliance of the Sorbonne and is one of the best and most prestigious French universities. This university supports a modern approach of social sciences on the basis of fieldwork, participant observation and ethnography.
